

PROFESSIONAL PROFILE

Driven and adaptable Computer Science student at the University of Toronto with full-stack development skills spanning Python, Java, C, HTML, CSS, JavaScript, React, Django, SQL, and RESTful APIs. Thrives in fast-paced environments, proven through a 4-month tech internship in Japan—conducted entirely in Japanese—where I built and deployed a live data analytics dashboard now used by clients. Recognized for a strong work ethic, problem-solving mindset, and ability to quickly learn new technologies and languages, including conversational Japanese through self-study.

SKILLS

- Programming languages: Python, JavaScript, Java, C
- Web programming: React, Django, HTML, CSS, Bootstrap
- *Others*: SQL, Docker, Postman and APIs, Microservices, Shell Scripting
- N1 level proficiency in Japanese (highest proficiency level in Canada)

PROFESSIONAL EXPERIENCE

Spline Global, Tokyo, Japan

2025

Software Developer, Intern

- 4-month internship in Tokyo, conducted fully in Japanese, in a company working on an interactive video service called Hihaho
- Led my own web programming project using React, Django, PostgreSQL and Docker
- Developed a data analytics dashboard that the company is currently using, that provides clients with an overview of the performance of the interactive videos they make with the company's service
- Gained real industry experience developing all aspects of a web app and presenting it to clients

Digital Age Quality Assurance (DAQA),

2022 – Present

Freelance video game beta tester

- Conducted load, ad hoc, compatibility and focus testing on unreleased games
- Learned the fundamentals of video game beta testing through DAQA's learning resources

Costco Wholesale, Toronto, ON

2021 – Present

Member Service / Cashier / Cashier Assistant / Front-End Services

- Learned how to work under pressure and in a hectic environment
- Employee evaluations praised my professional attitude, quick learning and outstanding work ethic

iThrive Games

2021 – 2022

Project Upload Intern

- Worked on testing and reviewing online courses and activities
- Created analysis reports of courses in development which were directly used in improving the courses

OTHER EXPERIENCE

Web App Development for Industry Partner

2025

- Created a web app for an industry partner as a part of a group course
- Team lead and awarded “Top Performer” in the project, gaining real experience in web development with a client and a programming team
